Neighborhood notice 26.11.2026

Pile Driving Works Underway in the Southern Yard Area of the Koskela Depot Construction Site

Pile driving works have commenced in the southern yard area of the construction site. The works began this week and are expected to continue through next week.

The piling works will cause intermittent noise, dust and vibration in the surrounding area. Activities generating the highest noise levels will be carried out on weekdays between 7:00 a.m. and 6:00 p.m.

The works will be performed in a manner that minimizes disturbance to the surrounding environment and nearby residents. We continuously monitor the impacts of the work and strive to reduce any inconvenience as much as possible.

We apologize for any noise, vibration, or other disturbances that the works may cause. We are doing our best to keep the impacts on the neighbourhood to a minimum.

Kind regards,
The Koskela Depot Project Team

Photographer: Sami Perttilä

The project is being carried out by Akseli Alliance, which includes the client Metropolitan Area Transport, main contractor Skanska, and planning partners Sweco, Rejlers, and Arkkitehtityöhuone APRT.
